SUPPLIERS OF HAND-PICKED NATURAL STONE

Since 1989

Our passion is bringing your vision to life

FOR OVER 35 YEARS,
WE HAVE APPLIED OUR
PASSION FOR STONE TO
BECOME A MARKET
LEADER IN QUALITY AND
CUSTOMER SERVICE

WKSTONE

**A LEGACY BUILT ON
QUALITY, SOURCED FROM
THE FINEST LOCATIONS
AROUND THE WORLD**

Over the past 35 years WK Stone has forged relationships with the finest stone quarries around the globe, such as those located in Carrara among Italy's majestic Apuan Alps in northern Tuscany.

Like diamonds, stone is graded and valued according to colour and veining. Only top-grade stone which meets our rigorous selection process is handpicked, carefully gang-sawn into slabs and transported here to Australia.

WK **STONE**

The background of the entire page is a close-up photograph of a granite surface. The color palette is dominated by various shades of brown, from deep, dark chocolate and near-black tones to lighter, warm tan and beige hues. The texture is highly detailed, showing a complex pattern of veins, crystalline structures, and mineral inclusions. Some areas appear more uniform, while others are heavily veined or speckled. The lighting creates subtle gradients and highlights the natural grain of the stone.

 NATURALSTONE

A close-up photograph of a marble surface. The image is dominated by a large, irregular white section in the center and right, which is heavily veined with thin, golden-brown lines. This white section is bordered by dark, almost black, swirling veins that create a complex, organic pattern. The overall appearance is that of a high-quality, natural marble.

MARBLE

Arbescato Violetta

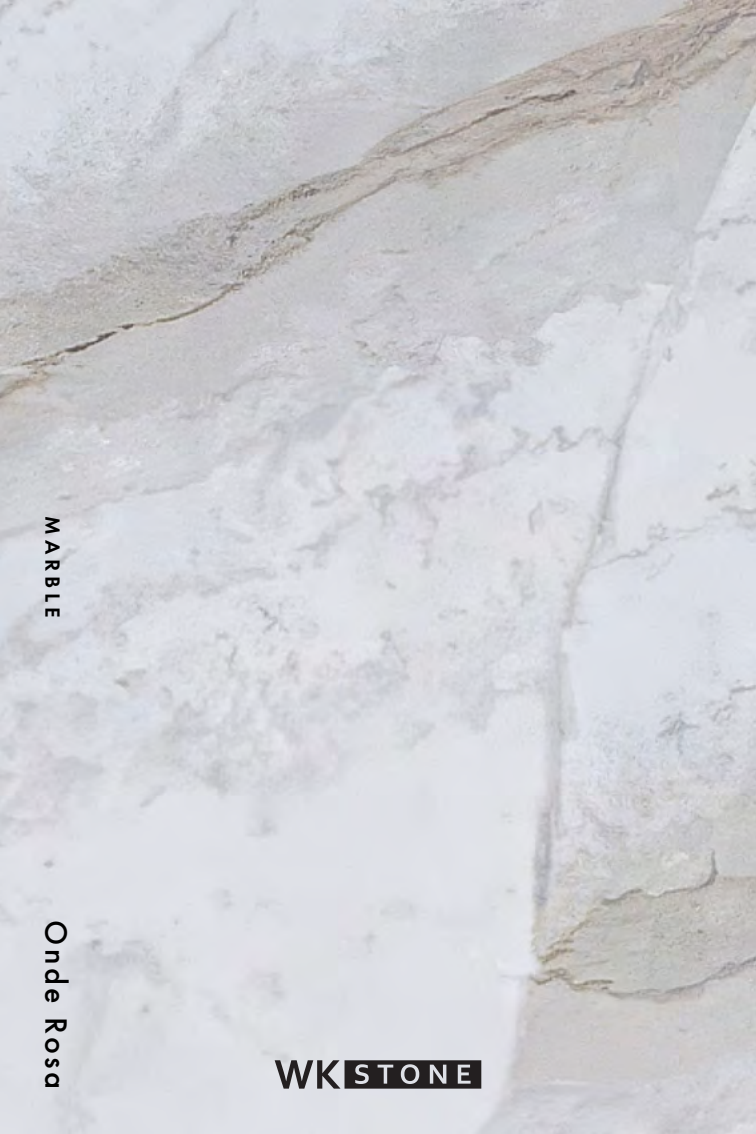

WKSTONE

The image shows a close-up of a marble surface. A prominent, wide, greyish-brown vein runs diagonally from the top-left towards the bottom-right. The rest of the marble is a light cream or off-white color, with some smaller, thinner veins and subtle color variations. The texture appears smooth but with natural stone grain.

MARBLE

Statuario

WK **STONE**

MARBLE

Onde Rosa

WKSTONE

The background of the entire image is a close-up, vertical view of a marble surface. The marble has a light cream or off-white base color, with intricate, flowing veins in shades of light grey, pale green, and soft brown. The veins are irregular and organic, creating a complex, natural pattern. The lighting is even, highlighting the subtle textures and variations in tone across the surface.

Crystal White / Rhino White

WKSTONE

The background of the entire page is a close-up, high-resolution image of a marble surface. The marble has a light beige or cream color with intricate, swirling patterns of grey, taupe, and subtle reddish-brown veins. The texture is organic and non-repeating, typical of natural stone.

MARBLE

Santorini / Lorde White

WK **STONE**

The background of the entire image is a close-up, high-resolution photograph of a light-colored marble surface. The marble features a complex pattern of veins in shades of grey, taupe, and off-white, creating a rich, organic texture. The veins vary in thickness and direction, some running diagonally across the frame while others are more horizontal or vertical. The lighting is soft and even, highlighting the natural grain and subtle color variations of the stone.

MARBLE

Elba White

WK **STONE**

The background of the entire image is a detailed, high-resolution photograph of a marble surface. It features a complex pattern of veins in various shades of grey, taupe, and off-white, set against a lighter, creamy white base. The veins are irregular and organic, creating a classic marble aesthetic. The lighting is even, highlighting the natural texture and subtle variations in color.

MARBLE

Super White

WK STONE

The background of the entire image is a detailed, close-up view of a marble surface. It features a complex pattern of veins in various shades of beige, cream, and light grey, set against a lighter, off-white base. The veins are irregular and organic in shape, creating a rich, textured appearance.

WKSTONE

An aerial photograph of a large-scale quarry operation. The image shows a deep valley with steep, rocky slopes. On the right side, the quarry is organized into numerous horizontal terraced levels, with a small red structure visible on one of the upper tiers. A network of light-colored, unpaved roads winds through the valley, connecting different parts of the site. The surrounding mountains are rugged and partially covered with green vegetation. The lighting suggests a bright, sunny day, casting shadows that emphasize the textures of the rock and the layout of the quarry.
